Cant Dogs, Cant Dogs.

WE desire to call the attention of all Lumbermen to our

Orono Patent Cant Dogs,

Which we believe to be the very best article of the kind now in the market. Its advantages over all others consist in—

1st. Having one Ring made of the very best Norway Iron, so that there are no "Toe Rings" to be "picked" off when two or more men are picking against one another.

2d. The Jaws are beveled and slide off easily, instead of receiving a heavy shock when a man strikes at a log and misses.

3d. The Rings being complete in one, the stock cannot chafe and break between the Rings; and last but not least, there is no clasp to spread and slip all over the stock.

We have also the exclusive sale of the

Aroostook Patent Cant Dogs,

which is also liked very much by those who have used them, and we can furnish

Peavy Cant Dogs

At almost any price to suit customers.

A certificate for the benefit of the afflicted.

For twenty-five years I had suffered with Scrofular and Salt-Rheum, (or Tetter). Have paid out hundreds of dollars, and been treated by several first-class Physicians, without benefit. Some four weeks ago, I commenced using the University Medicines. At the time my forehead and head were covered with sores and scaliness of the skin; also, my tongue was covered with small Ulcers. I am to-day free from all the above troubles, and can most heartily recommend these medicines to the afflicted.
L. C. MUNSEY, 27 Chesnut Street.
Portland, Jan. 24, 1870.

For some fifteen days, my family has been using the University Medicines with the most gratifying results. My wife is fast recovering, from Chronic Catarrh, Bronchitis, and Erysipelas. My daughter was so affected with catarrh, that her breath was very offensive. In two days she was entirely released of the odious smell, and I have no doubt in a short time will be entirely free of the disease.
Mr. D. STILLINGS, No. 6 Alder Street.
Portland, Jan. 24, 1870.

I have been afflicted for twenty years with Chronic Rheumatism. I have spent hundreds of dollars for medical treatment, without benefit. Ten days ago, I commenced taking the University Medicines, and I can truly say, it has been more benefit to me than all other treatment I ever received. My place of business is 137 Pearl street. I shall be pleased to answer all inquiries. JOHN TURNER.
Portland, Jan. 24, 1870.

In St. Domingo, three months ago, crew sick ... ceeded to sea. Fourteen days out, buried the Captain; most of the crew unfit for duty; succeeded in getting the vessel into Boston, all the hands went to the hospital. I employed a physician without benefit. I came to Portland, and was cured with the University Medicine in 48 hours.
N. WALSH, First Officer of Brig Koo-Doo.
Portland, Jan. 22, 1870.

For several years I have been troubled with the worst type of Scrofula; four weeks ago my neck and breast was covered with Scrofula Ulcers. I then commenced taking the University Medicine. My sores soon vanished, and my general health is better than it has been before for seven years.
MARGARET NOYES, 4 Oxford street.
Portland, Jan. 24, 1870.

For some time I was troubled with a fearful consumptive cough. My symptoms became truly alarming. I was cured with one bottle of the University Hydrate Oxymel and Fusel oil.

THE
Central Railroad of Iowa.
ITS
SEVEN PER CENT. GOLD
1st Mortgage Bonds
Free of Government Tax,
At 95 and Accrued Interest.

MANY PERSONS ARE SELLING THEIR GOVERNMENT BONDS WHILE THE PREMIUM IS STILL LARGE, AND REINVESTING IN THE FIRST MORTGAGE BONDS OF THE CENTRAL RAILROAD OF IOWA, WHICH PAY ABOUT ONE-THIRD MORE INTEREST. THE TIME TO MAKE SUCH REINVESTMENT is *while the Treasury is buying, and Governments are at a premium.*

THE ROAD DOES NOT RUN THROUGH A WILDERNESS, where it would have to wait years for population and business, but through the most thickly settled and productive agricultural counties in the State, which gives each section a large trade as soon as completed.

It runs through the great coal fields of Southern Iowa to the North where coal is indispensable and must be carried.

It runs from the great lumber regions of the North through a district of country which is destitute of this prime necessity.

The mortgage is made to the Farmers' Loan and Trust Company, of New York, and Bonds can be issued only at the rate of $16,000 per mile, or only half the amount upon some other roads. [illegible] of interest.

The New York *Tribune* says: "This is a splendid enterprise, [illegible]."

The New York *Independent* says: "We know the Central Railroad of Iowa is one of the great and good works of the age. Its Directors include many of our leading bank presidents and other gentlemen of high character, who have means enough to build it out of their own pockets, so that all its affairs will be duly as well as honestly managed. The Central of Iowa will be to that State what the New York Central is to this, except that it runs through a richer country. We therefore recommend the Central Iowa Bonds, with entire confidence in their value. The truth is, that a First Mortgage of $16,000 per mile upon a road running through such a country cannot be otherwise than safe."

First Mortgage Bonds of so small an amount upon a road running through so rich and already well settled part of Iowa can well be recommended as a perfectly safe as well as very profitable investment. They are now selling more rapidly than the company can use the money. Pamphlets, with maps, may be obtained, and subscriptions will be received at THE COMPANY'S OFFICES, No. 32 PINE ST., NEW YORK, and at the BANK OF NORTH AMERICA, 44 WALL ST., and in Bangor by

JAPANESE TROUBLES

NEW YORK, Feb. 26.

A Yokohama letter of Jan. 23d, states that the persecutions of Japanese who have been converted into Christians at Nagasaki, having again commenced, the Representatives of all the foreign powers waited upon the Government at Yeddo and protested against it. The united action of the ministers brought together a corresponding body of officers of high rank for the government and the proceedings between them are of the most interesting character.

The Japanese replied with spirit that the matter was one belonging to them alone, and that they were not reponsible to foreign powers. They gave as reasons, the fear that the proselyting of their people may lead to spirit of discontent, and finally undermine the time honored institutions of their government, which is based upon the Mikadoship.

The Mikado is held by the Japanese to be a lineal descendant of the Goddess Tenshi-o-Dai-jin, the mother of their race. As such he is the head of the Sinto religion and to acknowledge any other faith necessitates the recognition of another head spiritually higher than he. One of the foreign Ministers asked why Buddhists were allowed in Japan unmolested and the Japanese replied that the Buddhists recognized the Mikado. The Proselytes, so far as known, are Roman Catholics, converts of the Jesuits, who still have great influence over the people. As the Pope is their head, he necessarily comes in direct spiritual conflict with the Mikado, whose creatures complain that since the country has again been opened to foreign intercourse, the Jesuits have commenced their labors among the people with renewed energy and alarming success, carrying their zeal so far as to hold secret meetings by night and have taken possession of one of the ten sacred temples for their especial use.

The Japanese deny that the persecution is one of any great severity, as they do not separate families, but furnish them with food and clothing and merely distribute them among the various princes who have control over them and are charged with preventing them from forming any organization which might be dangerous to the welfare of the government.

REVOLUTION IN VENEZUELA.

NEW YORK, Feb 26.

A letter from Caracas, Venezuela, Feb. 9th, states that President Monagas has taken the field against the revolutionists who have lately been quite successful. They recently defeated the government troops at Adjuntas, near Caracas and then attacked Valencia, but after a desperate battle, causing a loss on both sides of 400 men, were repulsed by the government troops, who hold that city in strong force.

The revolutionists are still besieging the place. They are jubilant over the situation, and assert that the government will be overthrown before the 1st of March. The eastern States are neutral and take no part in the war, but the west on the contrary are strongly in favor of the revolutionists, and have furnished them 7000 men.

MAINE CENTRAL R. R. From the annual reports of the officials of the Maine Central Railroad it appears that the number of passengers carried over the road during the year 1869 was 183,840, and 97,089,240 tons of freight. The total earnings of the road for the year deducting thirteen months rent of the Dexter & Newport Railroad, were $566,137 69; expense account, $405,498 17, leaving amount of earnings over expenses, $160,638 50. The funded debt is $4,377,180, of which $78,080 is payable in capital stock. The $1000 million loan bonds are now over due and will be paid on presentation. The stock bonds and stock coupons are convertible into stock and have all matured. During the year $300,000 of the bonds of the Penobscot & Kennebec Company and $100,000 of the Maine Central Company will mature, which the Directors are to provide for. It is proposed to meet these liabilities by a series of bonds, either to be exchanged or sold, and the avails appropriated to pay them. The result of the consolidation scheme is awaited to determine the basis of their issue.

The Directors, in their report, argue for more satisfactory freight connections at Portland with the Western road a matter of importance for not only the interests of their corporation but as affecting the increasing interchange of commodities between this State and Massachusetts. The Superintendent suggests the transfer by machinery, of the bodies of the cars with their contents from the trucks of the cars of one guage upon those of the other guage, as a scheme equally economical with the method of changing the gauge of the cars by means of the sliding axles.

The work on the two branch roads that, when completed, are to be connected with this road, has been prosecuted during the past with commendable vigor. The Somerset road is well nigh graded and ready for the rails from West Waterville to Madison; and the Belfast & Moosehead line from Burnham to Belfast is so far completed, in the way of grading, as that the laying of rails will be commenced early in the spring. The relations of the Maine Central and European & North American road, now open to Winn are amicable, and the liberal plan now adopted by the Grand Trunk Company between Danville and Portland receives the hearty approval of all the patrons of M. WASHINGTON NEWS.

WASHINGTON, Feb. 25.

THE GENERAL APPROPRIATION BILL.

The General Appropriation Bill has been finished by the House and will reach the Senate at its next sitting. Mr. Dawes and Mr. Sargent of California were at issue with their associates on the Committee as to the Bureau of Education, but the House sustained them by a very decided majority. The result in the bill shows that the Committee is one of the wisest and strongest that the House ever had. One provision of the bill does away with all extra compensation to civil officers of any grade, another declares that contingent funds shall never be used for paying clerks or messengers, and a third carries back into the Treasury all unexpended balances one year in existence.

BILL FOR THE ADMISSION OF GEORGIA.

The Georgia bill brought in to-day by Gen. Butler from the Reconstruction Committee is exactly like the Virginia and Mississippi bills. It comes up next Tuesday. The Democrats will strongly oppose it, and are likely enough to make some ugly points in the discussion. The members of the Senate Judiciary Committee, which has the case of this State under consideration, say the bill is wholly inadequate to meet the situation, in that it neither vitiates nor legalizes the action of the last Legislature, and they hold that unless some legislation is had on this point, we stand a good chance to find ourselves worse off next year than we are now.

THE BUREAU OF EDUCATION SAFE.

The Bureau of Education is continued for at least another year. The questoin in issue on this point led to rather a sharp struggle in the House to-day, the Democrats resorting to every possible means of defeating the appropriation of $14,500 given by the Committee of the whole. The vote showed one hundred for the bureau and forty-six against it. The Senate will be very strong for the continuance, and the Bureau cannot be overthrown this year.

A REMARKABLE CASE.

They have got a curiosity in the Navy Yard of this city. It is a man who, when brought before a Justice of the Peace this morning, for violating a city ordinance, put in a plea that he is not amenable to the laws of the United States for the reason that he is a paroled soldier of the Confederate States, and does not wish to be considered a citizen of the U. S. The justice could not see things in this light, and fined him five dollars, which some of his friends paid.

REPORT ON THE GOLD CONSPIRACY.

The Gold Conspiracy Committee is preparing its report, and to-day agreed upon a part of it. They will finish the document and present it early next week, but cannot yet tell what day. They are taking the utmost pains to prevent their conclusions and the points of evidence from becoming public.

THE CADETSHIP IRREGULARITIES.

The Military Committee was in session nearly three hours to-day. They took considerable evidence in the case of Golladay of Kentucky. There was a large sum of money used in connection with one of his cadetships and the Committee finds it hard work to ascertain the facts about the matter. The contumacious witness of yesterday came to terms this morning and what has leaked out from the Committee rooms makes a rather bad showing for Golladay. Further evidence was also taken in the case of Butler of Tennessee and it does not sustain the view gathered from yesterday's testimony, and two members of Committee say they are by no means certain he can clear up the cloud under which he rests. Charges are now made against Mr. Churchill, one of the best members from New York, which are to be investigated to-morrow or Monday. Nobody here belives he has done anything wrong.

It may seem trite enough to point to the savage ferocities which grow out of the use of alcoholic liquor, and show that most of the bloodshed recorded in our columns from day to day is caused by it. But this Hottentot propensity in civilized society should be commented on occasionally. We have recently had the Brooklyn case and other cases of homicide all closely traceable to the poison which so many of our people are fools enough to sip and swallow, in token of enjoyment and good fellowship; and now there is the story of the two brothers Booth, Englishmen, residing with their mother at Fall River—the elder ill-treating his mother, murdering his brother for interfering, and then, in an agony of remorse, taking his own life: all because he thought, like so many otherr, that whisky is a good and pleasant restorative for a hard-working man. It has been proposed that the young people in our schools should be taught something of the laws of life and health; and we think such a teaching would have a good effect in removing much of the ignorance at present existing on the use of alcholic beverages.—[New York Times.

A FEW WORDS WITH THE RAILROAD COMMITTEE.

We publish this morning a report of the hearings before the Railroad Committee, from which it appears that Mr J F Rawson elected himself to represent the "best interests" of Bangor, before them on Friday last With all due respect to Mr Rawson, we beg leave to differ with him, and to offer one or two suggestions for the benefit of the Railroad Committee.

And, in the first place, let us say that the Railroad Committee should not accept the representations of any one of the parties directly concerned in either of the proposed charters for an Aroostook Railroad but should listen to the "demands of the people, and exercise their own judgment as to the interest of the State and more particularly as to the interest of Aroostook County The interest of Bangor is not alone in issue, although there can be little doubt that Bangor's interest is also that of the road

In the next place, Mr Rawson represents neither the interest nor the wish of Bangor, and there can be no suspicion that he now does or ever did represent the interest of an Aroostook Railroad On the contrary, he has consistently opposed, and probably will oppose, all railroad schemes that ask for our city aid. The people of Bangor have no opportunity of choosing, therefore, between two routes for a railroad, the impression has widely spread that the Houlton scheme is not genuine

What we would say to the Railroad Committee is, that they should report a charter that seems for the greatest good of the greatest number; not for this year or next, but for twenty years to come Were a railroad to be built for the present only, it is true that the Houlton route would be the most profitable to Bangor But that view is too narrow to occupy the attention of the Legislature In such matters they legislate for the future as well as the present, and in that Bangor and the State at large will commend them

What is for the best interest of the whole? It is the duty of the Committee to take into consideration the fact that Aroostook County must be developed by this Railroad, and that the road should be run where that can best be done It is their duty to consider the probabilities of success—whether the Houlton scheme appears as a genuine one or only as a flanker to divert attention and divide forces so as to destroy the plan of the friends of a Railroad for the benefit of the whole county and whether the other plan does not appear to promise more substantial results — It is their duty to consider whether it will be for the greatest interest to run a Railroad to Houlton there to terminate (for that is the declared purpose) and have the western part of the country still as far from means of development as ever, or whether it is not best to open up as far as possible the *whole* country

We understand the Railroad Committee are pretty well decided upon the point that only one charter should be allowed So far they are undoubtedly correct. Now, why cannot the two schemes compromise? Houlton must waive the apparent determination to stand in the direct route or to allow *no* route to be occupied, and on the other hand, those who advocate the central route may waive their judgment so far as to allow the road to run nearer Houlton than they at first contemplated The Committee should bear in mind all the time that Bangor and Aroostook want a Railroad charter, and that if no compromise can be effected by the two sets of corporators, then *they* must decide which plan is for the greatest interest, or they must effect a compromise through their own power By all means give us a chance to build a Railroad upon *some* route without further delay

---

Our readers will observe that the "Memorial" to our Representatives at Augusta, which we publish this morning, asking them, for certain reasons given to vote for a properly guarded bill for "Consolidation" of Railroads in this State, is signed by persons and firms who do the great bulk of the active business in this part of our State These gentlemen use railroads largely in their operations, and as business men, they readily see the necessity of adopting the most perfect system attainable for their management and development In our opinion, whatever may be said of the danger generally of consolidation, this movement is in the right direction, looking to the welfare of this part of the State, and this expression of the matured and well considered judgment of the Memorialists, should command for the measure which they endorse, the respect and confidence of the community, and of those who act for us in the Legislature "Consolidation" will give great and much needed assistance to the Railroad interests of Bangor By its aid, we shall be able to *immediately* penetrate the rich valleys of the Aroostook and bring back to our streets the valuable trade of that section, which has been for the past few years diverted from us It will also develop to the fullest extent and in the most economical manner, the resources of our Piscataquis road, in which Bangor has a large pecuniary interest, and over which, we have reason to believe a large and lucrative trade will before long begin to pour into our city "Consolidation" will give us one guage over the whole State which is very desirable, as by it we shall be able to avoid that serious annoyance and inconvenience to all business, the trans-shipment of freight, enroute between Bangor and Boston It will also give us a night train between this City and Boston, whereby our merchants will be enabled to travel between the Cities without loss of business hours "Consolidation" will, without doubt, help us as a community With reference to a fear sometimes expressed of consolidation, we can simply say, that the Bill has already been so amended in Committee as to provide that the rates of fare and freight shall never be raised above the rates existing on the first day of January, 1870, on the principal Railroads of the State. As an additional security in the same direction the Bill also provides that the State may, at any time, alter, amend, or annul, the charters of any of the consolidating Companies, whenever sufficient cause may exist. We simply desire that the Railroads may be allowed and may find it for their interest so to manage their affairs as to secure the best results, and enable them to develop the industry and business of the country to the greatest possible extent.

Two orders for adjournment are now lying on the table in the House of Representatives, one of which, by Mr Barker, provides for the adjournment of the Legislature on the 10th of March till the 20th of April, and the other provides for adjournment on Wednesday Mr Barker's idea seems most popular, as the Valuation Commission and the Commission on Revision of the Statutes will yet require considerable time to perfect their work.

Secretary Seward has accepted the feast offered him by the Tammany City Council of New York. Once upon a time when one William H Seward made his memorable "irrepressible conflict" speech, Tammany howled at his heels like a pack of blood-thirsty wolves, and this devoted city was too warm for him. Do the two Sewards bear any relation to each other?

The Machias Republican misrepresents us upon the question of an Eastern Railroad route If the editor will take his map and examine the route mentioned in the Bucksport charter (through Surry and Penobscot) a route several miles south of the direct line from Ellsworth, when in fact it should more reasonably go north of it in order to accommodate the largest interests, he will see our special point of objection to that road as proposed Then again the Republican is mistaken in supposing that our remarks are in the interest of Bangor alone the people of Machias are as much concerned in this initial link of an Eastern Railroad as we are Do the eastern people desire to travel for all time forty five miles to accomplish less than thirty? Will they be satisfied to procure such an outlet as cannot conveniently and immediately be tapped by the other Railroad lines of the State?

Let us be plainly understood in this important matter What we wish is *not* that Bucksport shall be prevented from communicating with the East but that in the general plan the east shall be considered In this view one of two plans appears necessary to follow a direct line from Bangor to Ellsworth, or failing in that, the other road should be so laid out as to give the east an outlet by way of Bangor by the nearest convenient route A route seems feasible starting from Ellsworth, following the Union river north a short distance, thence north west following around the north shore of Branch Pond, thence south west through the north of Orland to Bucksport From the head of Branch Pond, a road could be constructed through Dedham and Holden to Bangor a distance of about fifteen miles, or making the whole distance travelled from Ellsworth to Bangor less than thirty miles Thus while the route named in the charter carries the line away from Bangor so that we cannot reach it save by building directly to Bucksport this proposed route accommodates Bucksport just as well, and gives an opportunity for Eastern people to reach the other parts of the country more easily and cheaply

We must therefore except to the Republican's conclusions, and we commend this subject to its careful consideration The people of the east will not be satisfied with a mere outlet to a harbor, they demand, as well close connection with the general railroad system of the State Most certainly they are more than any other parties, interested in the most direct line to accomplish that end

---

A writer in the Kennebec Journal rehearses the difficulties that have surrounded and delayed the work of the Valuation Commission arising in good part from the utter diversity of opinion allowed by our system of making up valuations and the lack of system which characterizes the returns of municipal officers His proposition is that the trouble of this year shall not be left to recur with the end of the decade but that timely legislation shall establish a uniform rule by means of which municipal officers may make their valuations on the same basis, and that this basis shall be the market value of property — It is very likely that in the new revision now to be completed the Statutes will make the work clearer in future, and thus save great expense

Coal miners' strikes in Pennsylvania are too regular frequent and systematic to mean anything but co-operative monopoly The latest is told in a dispatch from Wilkesbarre, Penn, which states that the Miners Union has notified the Wilkesbarre Coal and Iron Company that a general stoppage in the mining region will take place on Monday next, and will continue for an indefinite period. The object is to get control of the market by decreasing the supply Can Congress fail to note these periodical swindles by which coal is allowed to be kept high under the "protective" monopoly of Congressional legislation?

NEW HAMPSHIRE POLITICS At the meeting of the New Hampshire Democratic Central Committee in Concord on Wednesday evening last, reports were received from different sections of the State on the political status of the party, which were not very flattering to their ticket. Reports from Stafford county show that Gen Bedell could not get twenty five per cent of the Democratic vote In Rockingham the vote was estimated at thirty five per cent, and in Merrimack [illegible] per cent In Carroll considerable dissatisfaction was reported These reports were considered by the committee as damaging, and it was represented that if some advisory course be not immediately decided on a large portion of the disaffected would vote for Gov Stearns, and his election by the people be made sure An opportunity was left open for the labor reformers to put into the disaffected districts split tickets, with Samuel Flint at the head This it was claimed would save some 5000 from the Stearns ticket from that portion of the party, who would not go to Bedell any way It was conceded by the committee that ten days ago the election of Gov Stearns by the people looked like almost a sure thing, but they hope by substituting Flint for Bedell to defeat him, but do not think Flint will get votes enough to be a constitutional candidate before the House. This was the general talk in the committee but it was thought best to work by quietly soliciting the labor reformers to take advantage of the situation The meeting of the Committee was not harmonious as some of the "old liners," preferring to sink or swim and preserve the party organization General Bedell will not decline as rumored but will "stick The Democratic party in New Hampshire is nearly in the condition of being without a candidate or votes

RAILROAD HEARINGS.

Two public hearings have been held before the Railroad Committee upon the petitions for charters for the Northern Aroostook Railroad and for the Bangor and Houlton Railroad I give the following abstract of both.

Mr Stickney of Presque Isle said he was aware that a great amount of money is required to build the road and the more union and harmony can be obtained the better The bill proposes to grant a charter for a road from the European and North American near Mattawamkeag to some point on the northern line of Maine upon the St John The friends of the road do not wish to confine the route to any locality but to let circumstances decide. No survey has yet been made The best route never can be known until an engineer goes on and surveys the route All the people of the County of Aroostook want is a road built in the most feasible route The Railroad question was involved in the election last fall The present Senator from Aroostook was elected because he was a railroad man though a Democrat The names of over 5000 men in Aroostook favor a railroad and ask for a charter This road will ultimately be located within 12 or 15 miles of Houlton It will thus accommodate the principal towns in the County—Presque Isle, Houlton, Patten &c and it will open up a fertile and well wooded country to settlement All the towns in Aroostook County excepting three would be accommodated by a road running up the Molunkus valley We need the road We have not the money to build it and it must come outside Bangor is interested in having this territory pierced by a railroad Bangor is the natural outlet of the Penobscot and must continue to be so and we expect the city of Bangor will lend its credit to assist in construction of this road The railroads will also [illegible] It is also the duty of the State to assist [illegible] I [illegible] there was perfect harmony [illegible] upon the question of location [illegible]

Mr Powers of Houlton said we say to the gentlemen if you wish for a route definite [illegible] While Mr Stickney and his friends wish to locate up the Molunkus valley we only say we don't care where it is located but such action [illegible] construed to mean that no other railroad [illegible] granted. Give us both the charter [illegible] will build [illegible]

Mr Collins Senator from Aroostook [illegible] the land interests of the County and [illegible] St John [illegible] of Bangor [illegible] The [illegible] the County is in the two first ranges The road should [illegible] third range [illegible]

In consequence of a telegram received from parties in Bangor who are interested in the hearing [illegible] wish to be present the hearing was adjourned till Friday.

The adjourned hearing [illegible] Friday [illegible]

Mr [illegible] said [illegible] North and Central Aroostook [illegible] of the State We want a road [illegible] from the Mattawamkeag up to Presque Isle and to the northern boundary [illegible] road to Houlton [illegible] the question is whether two charters will [illegible] from being built

Mr Collins said the Bangor and Houlton [illegible] would be [illegible] 100 miles [illegible] and would run up and through [illegible] County Now [illegible] Bangor [illegible] Northern railroad [illegible] through the best [illegible] of Aroostook County Hundreds of thousands of dollars are sent [illegible] from the County and State [illegible] for want of a road towards Bangor [illegible] goes down to St John

Mr Keegan of Madawaska said the nearest point of [illegible] is 80 miles distant [illegible] St John [illegible] New Brunswick [illegible] the Northern road preferable Thinks the route should be chartered which will accommodate the most of the citizens

Mr J F Rawson of Bangor said his remarks were for the purpose of protecting what are considered the best interests of Bangor His first and greatest argument for [illegible] is that the Legislature should take measures to protect and keep the trade within its own borders The line of the road should be run as near the line of the State as possible so as to save all the business All immigration going into Aroostook first seeks the villages there for the settlement of the County must radiate from the towns and villages, and thus the further east the road is built the better We of Bangor are suffering from having built the Piscataquis road to a certain end The most direct line is the cheapest By building that road as we did we lost the trade of several large towns to save that of some parties which could not have been taken away There is [illegible] to help build a road on the Bangor and Houlton line and it has been proved that railroads running along a river pay the best Water can not compete with railroads Thinks the Northern road would injure Bangor while the Houlton road would save a large amount of trade to the city Thinks if consolidation is successful Bangor will be about the same as islanded for a road will be built down to [illegible] Belfast and the business will be drawn away from Bangor The Aroostook roads cannot be built without aid from Bangor and if Bangor is to build the road she should have the choice of the route

Mr Stickney of Presque Isle did not agree with the general remarks of the gentleman from Bangor There is no Province market equal to Bangor Believes the best route for the road is in the third range of townships up the Molunkus river It would command the trade of all the towns—Bridgewater, Monticello &c even above Houlton The Bangor and Houlton road would be a convenience to only three towns—Houlton Linneus and Hodgdon The central route will command the most business and accommodate the most people It is folly to talk of building two roads parallel and within ten or fifteen miles of each other It looks to him as though the charter for the Houlton road is asked for merely to prevent either from being built. Is authorized to name the town of Smyrna as the point to strike on the Central road, which would come within a dozen miles of Houlton. Read a letter from Mr Jewett recommending a route being surveyed, through the valley of the Mattawamkeag, and if the route is possible to accept it.

Major Dickey of Fort Kent, said the first requirement is a survey The great struggle is caused by jealousy Where is the money to come from. Certainly two roads cannot be built and it would be better to charter neither route until the survey is made. Would have the route strike Fort Kent and then the lumber, &c., could be floated down the St. John to the road. It is on the nearest and most direct route from the tide waters to Quebec. Houlton is the most thriving inland town in the State. Would push the road immediately up from Houlton to Presque Isle. If the road is not chartered when the capitalists want it, it will never be built.

Mr. Prentiss of Bangor, wished to have the best location for Bangor and the people of Aroostook. [illegible] up the Molunkus to Smyrna, thence to Presque Isle. Thinks the Central route preferable and that one charter would be best. Would leave it to the Railroad Commission to choose the best route

Mr Stickney said he was willing to have an amendment so that they could unite and act under one charter, but he wanted something definite as to the route

Mr Rawson said Bangor wants the trade of both Houlton and Presque Isle and perhaps it would be best to run the road up to Houlton then swing off to Presque Isle and thus not make a much longer route There are thousands of inhabitants in the County who are living on proprietors lands and at their mercy There is no settling land left—they have all been taken up Thinks a road must and should be built to Houlton and it will not stop there It will build up all the rest of the County Don't care so much about the route if it only strikes the St John river

The Committee voted that but one charter should be granted, and the parties were advised to unite upon some route

This closed the hearing and the Committee adjourned till next Tuesday when they will decide the matter QUIDAM

A proprietor of a New York paper to-day urged upon the Senate Postoffice Committee the abolition of the franking privilege, and submitted a plan of his own for new rates of newspaper postage The Committee listened patiently He then waited on Postmaster-General Cresswell and urged his views upon him

The report of the Gold Panic Investigating Committee is expected to-morrow, but it is not yet finished and will not be submitted to the House before Tuesday

The Secretary of the Treasury has directed the Assistant Treasurer at New York to continue the sale of $1,000,000 in gold and the purchase of $1,000,000 in bonds, on alternate weeks during March, on account of the sinking fund Also to purchase $1,000,000 worth of bonds on each alternate week for the special fund

The Judiciary Committee of the Senate have unanimously agreed to report in relation to Georgia. They do not recommend any further legislation, but say there were irregularities in the organization of the present Legislature They decide that the terms of the Governor and member of the Legislature commenced in 1868 The report is considered favorable to Messrs Hill and Miller although the Committee make no special recommendation in regard to the senatorial question

In accordance with the published notice, a meeting of the friends of Gen B F Butler was held at Union League Hall to-night.—Remarks were made, the orators speaking in eulogistic terms of that gentleman, as having, by bringing a company of Massachusetts troops hither at the beginning of the war saved the Government. One gentleman present remarked that though but few persons were then present this meeting was the beginning of a movement to elect Mr Butler to the Presidency Another said that while he admired Mr Butler he thought this movement premature and that it would do him more harm than good Resolutions were adopted tendering Mr Butler thanks for his services in the army and out of the army, in Congress and out of Congress His friends then proceeded to his residence for the purpose of serenading him

FEARFUL RAILROAD ACCIDENT.

MEMPHIS, Feb 26

A fearful rumor prevailed here last night that a terrible accident had occurred on the Mississippi Central Railroad during the afternoon attended with great loss of life A telegram was sent to Water Valley, but it is supposed that the officials would not permit [illegible] operators to communicate anything At last nothing could be learned from there Passengers from Nevada this morning confirmed the report They say that the regular mail train when three miles below Oxford yesterday P M, ran through the trestle smashing the baggage, express and 4 passenger [cars], and killing and wounding a large number of persons At last accounts twelve bodies had been taken from the wreck, including Mr McDonald, the road-master and two ladies. A J McCormick, treasurer of the road and his son Samuel B were fatally injured

Second Dispatch—

Another report from Oxford, states that Mr McCormick, his son and conductor Adams were instantly killed Col Samuel Tate President of the Road, had his leg broken Fifteen bodies had been taken from the wreck. The bottom of the wreck had not been reached No telegrams in reference to the matter have been received yet. The arrival of the 3.30 train on the Charleston road is anxiously looked for, when full particulars will doubtless be received, It is well known that the excursion train was behind the ill-fated train

OXFORD, Miss, Feb 26.

A fearful accident occurred about four clock yesterday afternoon, to the regular morning train on the Mississippi Central Railroad for New Orleans The train leaving Humboldt behind time rapidly approached Buckner's Tressle, which is 40 feet high and over a ravine The engine crossed safely but the remainder of the train ran off the track crushing the tressle and completely wrecking the baggage, mail, express and three passenger cars

The cause of the accident is believed to have been the unsound condition of the tressle timbers which permitted the rail to slip out of place, and thus switch off the cars which crushed through the tressle or plunged into the ditch. Every car was utterly destroyed The baggage, mail express and sleeping cars broke loose and were scattered on both sides of the ravine into which the wreck plunged The first and second passenger cars were shattered into pieces The remaining car kept its place on the track while its forward end rested on the wreck of the second car in the ravine Two women, four children, five white and three colored persons are known to have been killed, and it is feared many others

SUICIDE.

BOSTON, Feb 27

BOLD ROBBERY

WORCESTER, Mass, Feb 27

A bold robbery was perpetrated in this city yesterday afternoon. Two men entered the house of Timothy Barrett, when all the family but a boy 13 years old were absent. They knocked him down and tied him with a clothes line and then searched drawers and trunks. The money which they wanted was with the absent members of the family but the robbers carried off a gold watch and gold chain jewelry, silver and other articles of value They have not yet been arrested.

SHIPWRECK

PROVIDENCE, Feb 2[illegible]

The schooner Benjamin Butler, Captain Fowler, from Elizabethport, New Jersey of and for Providence, was run down and sunk off Watch Hill, at one o'clock, A M Friday The vessel was cut in two and went down instantly Four men were lost, viz Captain Fowler, Joseph Northrup, James McKenzie and a colored cook named Amos Walbon The Mate, George Northrup, was fished up by the Thetes after being in the water half an hour and did not recover for several hours The lost men except the cook belonged in Wickford, in this State The wind was blowing a gale at the time It is thought that the schooner's lights were obscured by ice She had a cargo of coal

FINANCIAL

NEW YORK, Feb 26

The Express says that Wall Street was all sea again to-day in consequence of the absence of any official quotations from London, in regard to the quotations for bonds to-day The 5–20 bonds in London is the first upon which the gold market turns, and the whole business of the country at the present time hangs upon gold,

It is a little remarkable that the cable should not be equal to the task of sending the bond quotations, although it can stand the strain of miscellaneous news

It is also remarkable that the cable always gives out at an important juncture like the present This affair was the chief topic of conversation in financial circles to-day, and caused no little indignation among the bankers Money is quiet and easy at 4 to 6 per cent. on call

LOCAL AND OTHER ITEMS

THE MAINE CENTRAL RAILROAD Some industrious busy-bodies have been circulating the report that since the late accident to bridges on the Portland & Kennebec Railroad, the Maine Central have raised the price of freight upon their road Mr Noyes, the Superintendent, pronounces the story a slander and states that instead of raising the rates on freight since that time they have made frequent discounts to those who suffered severely by the flood

HARRIMAN HOUSE. Messrs J. E Harriman and R W Carter have thoroughly repaired and remodeled the Hatch House on Main Street and made it in all respects a comfortable and convenient hotel It is now open to the travelling public, and will hereafter be known as the Harriman House They have adopted to a certain extent the European plan, as they serve meals at all hours from five in the morning to eleven o'clock at night Mr Harriman has had considerable experience as a landlord, at the Nichols and other houses, and Mr, Carter has been for some time past connected with a hotel We have no doubt they will take especial pains to accommodate their customers and thus build for the Harriman House a large patronage and a good name

—The weather has been delightful for a day or two past and the sleighing fully enjoyed You have only to go a few miles North or East of the city to find capital sleighing, but unfortunately, bare spots are becoming numerous in the roads in our immediate vicinity We must have more snow soon or the rumbling of wheels will again be heard in our streets

—Dr J F. Babcock, as will be seen by advertisement, will shortly return from Philadelphia to Bangor, and resume his Dental practice He is the writer of several very interesting letters from Philadelphia over the signature of "Dentist," which have lately appeared in this paper

BANGOR, Feb 25, 1870.

To the Editor of the Whig and Courier

Your proposition in regard to the liquor agent in this morning's issue is not difficult of solution. The stock on hand being given, the question is how much is due from the agent after turning over that stock to the town, in that case you have only to do with the cash, as follows.

Cash on hand,	$ 25 00
Sales,	139 00
	164 00
Paid out,	62 00
	102 00
Deduct salary,	25 00
Balance due town,	77 00

BANGOR PRODUCE MARKET

Saturday, Feb 26th, 1870.

The following report is obtained by particular observation on the market, and the quotations are the prices paid for produce from the country teams this day or about the average for the week past

Apples Dried apples come in quite plenty but the demand for them is so small that they are selling at from 12 to 14 cents per pound, occasionally an extra lot selling at 15 cents but it is an outside price

Beans — Yellow eyed beans are now worth $2 25 for the best [illegible] mixed or store beans would sell at a less price and extra hand picked pea beans $3 00

Barley There has been no change in the price of this article to note, and not much been offered for sale this week It has sold at from 70 to 75 cents

Butter—We should quote winter made from 25 to 28 cents but a good fair article lump and solid at from 30 to 32 cents but extra article of lump is scarce and would sell readily at from 35 to 38 cents

Eggs—This article of produce seems to be again affected by the weather and the manufacturers have placed them at 2[illegible] cents per dozen

[illegible] The demand for this quality of fruit keeps the price at from 45 to 50 cts per bushel

Poultry—Chickens are worth from 18 to [illegible] cents and turkies seem to be somewhat scarce and we should quote them from 20 to 24 cents and an extra lot of the birds would sell as high as 25 or 26 cts

Round Hogs sell at from 13 to 14 cts per pound for good Western produce and we should quote good Eastern not frozen at from 14 to 15 cents

Beef—This article we should quote at from 8 to 12 and something very extra at high as 14 cents per pound by the side

Hay [illegible] the best [illegible] loads of loose sells at from $15 to $16 and inferior loads including swale hay sells at from $10 to $14 Loose straw is [illegible] from $8 to $10

Oats are selling at 65 cents per bushel

Wood Seasoned hard wood sells at from $7 00 to $[illegible] per cord and the best green hard wood at from $[illegible] to $6 [illegible] green [illegible] wood $4 50 to $[illegible] 00 [illegible] soft wood at from $4 00 to $5 00

Coal [illegible] is selling at $10 per ton [illegible]

THE HAUNTED HOUSE.

A Legend of the First Framed House in Bangor

They said that the old house was haunted,
And sometimes, we thought it was so,
For noises were oft heard o'nights
As of ghosts wandering to and fro,
Come back to see what was going on here below

And once, at midnight's wild weird hour,
When the weather was bitingly cold,
Stamping it through the long front hall,
The goblins seemed revels to hold,
As if to prove true what the gossips had told.

A man of nerve, was my father,
And he said, "for myself I will see
Who it is that's making this racket,
Or whatever its cause may be,"
So with horsewhip he hastes to the front entry

There he found his young "hopefuls," all four,
As at "hintry mintry" they played,
When a run for the trundle bed,
By the goblins was speedily made,
With a cut of his whip for each ghostly shade

VALUABLE

Timber Lands

And Mill Property

FOR SALE.

THE subscriber, desirous of disposing of all his interest in Timber Lands and mills, will sell on favorable terms the following

One-Half Township No 5, Range 4, Oxford County.

The whole township contains twenty six thousand (26,000) acres is heavily timbered with spruce, estimated at sixty to eighty millions, all of which stands within near and easy hauling distance of the Magalloway river or its branches, which runs through the town, or Parmachena Lake, which is embraced with in its limits.

Also 16,000 Acres of Land in the Town of Byron, Oxford Co.,

well covered with large Spruce timber Swift river and its branches run through these lands and empty into the Androscoggin below Rumford Falls

Also 1100 Acres Timber and Wood Land in Town of Gorham, N. H.

two miles above the Alpine House, on the line of the Grand Trunk Railroad, and the banks of the Androscoggin river There is a large quantity of wood on these lots which, from its proximity to the Railroad, is steadily increasing in value.

Also 2500 Acres Lands in the Towns of Albany and Stoneham.

near the village of North Waterford Oxford County This land is covered with thrifty sapling Pine timber, standing near Crooked river, which runs through the tract. Logs put into Crooked river can be run to Saccarappa, or by hauling four to five miles they can be put into the Saco There is a good mill privilege, with a single saw mill on the tract, distance to the canal at Harrison ten miles, to the railroad at South Paris twelve miles The land is valuable for settling purposes after being cleared of timber

Also 435 Shares of Stock in the Lewiston Steam Mill Company,

the whole capital stock being represented by 837 shares The property of the company consists of a Steam Saw Mill, capable of manufacturing five million feet of long lumber, with a proportionate amount of clapboards shingles and laths. About fifteen acres land in the city of Lewiston, well located for building purposes, and thirty thousand acres of timber land well located on the Androscoggin river and its branches, from which but a small quantity of the timber has been cut.

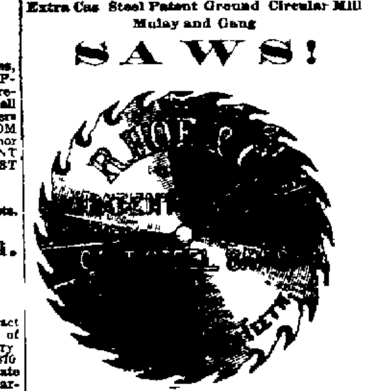
SAWS!



CIRCULAR SAW,

With Movable or Inserted Teeth.

We claim for our Patent Circular Saw the following advantages over all others

The shanks of the teeth are elastic, and exert a uniform distension in the sockets

The stability of the plate is in no way affected by inserting new sets of teeth

Each tooth, independently, may be adjusted to the cutting line

No rivets, keys, or other objectionable appliances are employed in connection with the teeth which are as simple in construction, and as easily used as a nut for a bolt.

In short, all the difficulties heretofore experienced in the use of movable teeth for saws, are fully met and obviated by this invention

AMERICAN AND FOREIGN PATENTS!

R H EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office Washington under the Act of 1837

No 78 State Street, opposite Kilby Street Boston.

After an extensive practice of upwards of twenty years continues to secure patents in the United States, also in Great Britain France and other foreign countries Caveats Specifications Bonds Assignments and all papers or drawings for Patents executed on reasonable terms with dispatch Researches made into American and Foreign works to determine the validity and utility of Patents of Inventions and legal and other advice rendered on all matters touching the same Copies of the claims of any patent furnished by remitting one dollar Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions

During eight months the subscriber in the course of his large practice made on twice rejected applications, SIXTEEN APPEALS EVERY ONE of which was decided in *his favor* by the Commissioner of Patents

TESTIMONIALS

I regard Mr Eddy as one of the most *capable and successful* practioners with whom I have had official intercourse.

CHARLES MASON Commissioner of Patents

I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE
Late Commissioner of Patents

MR. R. H EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted and that is now pending Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHNSON'S

ANODYNE

LINIMENT!

CURES A

Great Variety of Diseases,

SUCH AS

Consumption in its first stages, and all Difficulties of the Throat and Lungs also Spinal Diseases and Kidney Troubles Diphtheria Coughs Colds, Influenza, Bronchitis, Asthma, Whooping Cough, Cramp and Pain in the Stomach, Bowels or Side, Rheumatism Chronic Diarrhoea, and Dysentery

Read the following certificate from Deacon John Hodgkins of Jefferson Me

South Jefferson Me

In May 1856 our agent met with Deacon J Hodgkins of South Jefferson Me who related the following astonishing cure effected by Johnson's Anodyne Liniment He said Some time ago my son was taken sick with a serious lung difficulty which threatened to end in quick consumption We immediately summoned our family physician who attended him faithfully for about four weeks during which time he gradually grew weaker He was very much alarmed about himself and being satisfied that he was growing worse all the time he finally refused to take any more medicine from the physician and expressed a wish to try Johnson's Anodyne Liniment I immediately told the physician expecting that he would object to his using it but he did not He said Let him try it it won't hurt him and it may do him some good

He did try it and continued to use it both taking it inwardly and bathing the chest and lungs outwardly Very soon he began to improve gradually gaining strength until at last we had the satisfaction of knowing that the fearful disease was broken up

My son is alive and well to day possessing a strong and vigorous constitution which we attribute under God to the use of Johnson's Anodyne Liniment I can further say that I never allow myself to get out of the article and I think it is [illegible] it is the *best* family medicine in the world

Signed
JOHN HODGKINS

Deacon Hodgkins is one of the most respectable citizens in the community in which he lives and he made and signed this statement in presence of witnesses We invite any who are interested to correspond with him in regard to the above.

FROM MAJ JEREMIAH FENNO

Bangor Mar 1 186

MESSRS I S JOHNSON & CO BANGOR ME

Gentlemen While on duty as paymaster in the army in the Southern and Southwestern States for about four years I had frequent opportunities of observing the extraordinary and beneficial effects of the American Anodyne Liniment put up by you

Among those who used it—and to my surprise I found that its use was very general with our soldiers there seemed to be but one opinion as to its wonderful efficacy and marked superiority over all other medicines of its kind

As the arms which the boys in blue carried were a defence against the rebels, so Johnson's Liniment (the great Maine remedy as they called it) was a sure defence against almost any bodily ill whether it was an *Ache Sprain Cramp Bruise Cut Cold Cough Rheumatism Diarrhoea Bites of Venomous Insects* or almost any other complaint that might beset them during the terrible exposure to which they were subjected in their Southern campaign Among the cavalry the Liniment was considered especially valuable for *Wounds Sprains* and the injuries to their horses

KIDNEY COMPLAINT

This most distressing disease has become alarmingly prevalent within a few years and is proving a destroyer of human happiness and in some cases of human life It is not confined to old or middle aged, but is quite as frequent among children and young people as any other class. One of the most effectual remedies known for this dreadful complaint is Johnson's Anodyne Liniment It has never failed as yet, as we have abundant proof to show We refer with pleasure to the following letter from H D E. Hutchins, Esq a gentleman and a merchant well and thoroughly known in Fryeburg Oxford County Me where he resides

Fryeburg Me 1 8 1867

Messrs I S Johnson & Co

Dear Sirs In the fall of 1866 I was attacked with a violent pain through my back and kidneys which laid me up for more than a year I consulted the best physicians in the county and Portland. Some pronounced it kidney, some spinal disease After being under their treatment six or eight months and receiving no particular benefit, I was advised by a friend to try your liniment. On taking part of a bottle it brought away in my water, something similar to the *filings of steel*, which relieved me in part, and, by continuing to take it for three months or more, I was completely cured. I most heartily recommend it as the best family medicine I ever used With pleasure I send you the foregoing statement. You can make such use of it as you deem proper

Respectfully yours
H D HUTCHINS

The foregoing statement may be relied upon not only as coming from a gentleman who thoroughly understands his own case, but one who has sold and watched the operation of our liniment for more than *twenty-five years*

EARACHE.

Put in two or three drops of Anodyne Liniment, stop the ear with undressed wool, bathe the feet in warm water on going to bed, and keep the head warm at night.

Sick Headache, Nervous Headache, Dizziness spells of Blindness, &c., may be cured by a box of Parson's Purgative Pills which only costs twenty five cents.

CASTING BREAD UPON THE WATERS, AND WHAT CAME OF IT.

Some time since, a stranger came into our office to sell something We do not remember what but noticing that he had a bad cough we gave him a bottle of our Johnson's Anodyne Liniment, for which he thanked us and departed As he was a stranger in our city, and a man we never saw before, we had no expectation of ever hearing from him again, but to our surprise about a fortnight later, we received the following well written letter for which we take this opportunity to thank the gentleman, hoping that this may sometime meet his eye —

UNITED STATES HOTEL,
PORTLAND, ME, Aug 17

Dear Sir—I beg to tender you my sincere thanks for the bottle of Anodyne Liniment which you gave me and which has cured me of that troublesome and dangerous cough which excited your sympathy I trust the remedy will become still more widely known than it is and do a world of good

With sincere respect I have the honor to be yours truly F DWIGHT KENDALL

CHRONIC DIARRHEA.

The following statement of William Clark, Esq, is entitled to great credit having come to us fully attested and sworn to without any solicitation on our part or even knowing that such a thing was in contemplation,—

MR I S JOHNSON Dear Sir,—I was attacked with the diarrhoea in the year 1818 and tried all of the many medicines that was recommended to me for that complaint but they had no effect whatever Then I applied to different doctors, both in this state and in Massachusetts They could not help me I was reduced to most a skeleton, and through the good advice of a friend, I was told of your Anodyne Liniment I commenced taking it in the Spring of 185 and found it helped me, so I continued the use of it until I had taken nine bottles I am now perfectly cured, and over fifty pounds heavier than last summer I give you these lines that you may publish them if you see fit, for the benefit of the suffering community I think it one of the best medicines that the world affords If any one should think this a humbug, please inquire of my neighbors here there are plenty that will testify to the truth of the case. I purchased the Liniment of Mr A Merrill of this place The undersigned would further testify that he thinks the Liniment was the whole means, through the blessing of God, of saving my life I weighed in the spring of 1852 a hundred and thirty two pounds; I now weigh a hundred and [illegible] nine pounds [illegible]

A STIFF LEG BENT AT THE KNEE, LIMBERED AND STRAIGHTENED.

The following certificate was sent us without solicitation and with personal knowledge of the facts

I S JOHNSON Dear Sir —In consequence of [illegible] my leg it became entirely stiff and bent at the knee at a right angle so that from the knee down I was obliged to wear a wooden leg for several years The lower limb was so much in the way that I decided to have it amputated, and a consultation of physicians for the purpose was held but Johnson's Anodyne Liniment being recommended to me as a powerful agent in relaxing the muscles and cords, I concluded to give that a trial and to my great joy I found, by using three bottles my leg was limbered and straightened so far that I am able to use it about as well as the other I consider myself indebted to the use of your Liniment through the blessing of Providence for the use of my leg, and would say to others who may be afflicted try it, and no doubt you will be cured

TWENTY FIVE YEARS' EXPERIENCE

NEW GLASGOW, N S, Aug 1, 1862

This is to certify that I have been acquainted with Johnson's Anodyne Liniment for twenty five years, during which time I have both sold and used it in my family I have no hesitation in saying I consider it an excellent family medicine I think it unequalled in Whooping Cough In recommending it, I am not only doing an act of justice but I feel confident, an act also of humanity

In using it for Coughs I generally combine it with something to act on the liver and bowels (Parson's Purgative Pills)

CHRONIC DIARRHŒA.

CAN BE CURED BY JOHNSON'S ANODYNE LINIMENT

Read the following certificate from one of *our own* most respected fellow citizens —

BANGOR, Feb 29, 1862

MR JOHNSON Dear Sir,—For more than two years I have been afflicted with that distressing complaint Chronic Diarrhœa I have been treated for it by some of the best physicians in this city and other places, but without any good result, had lost my appetite lost my strength not able to perform any kind of labor and found I must soon be a burden to myself and to my family About three months since I was urged by a friend to try Johnson's Anodyne Liniment and did so without much hope or expectation of being benefitted but I must say, as soon as I began to take it I began to feel better, and I am now well and strong can eat my allowance of most any kind of food without causing me any distress. We have used it in our family for colds and Internal Pains, and I do think it the best family medicine I ever saw I live on Fourth Street in the city of Bangor, and would be glad to tell anybody how much benefit I have received.

PURGATIVE

PILLS.

For the Cure of a great variety of Diseases arising from the Impurities of the Blood, and Obstructions in the Organs of Digestion.

The only cathartic that will relieve the bowels, cleanse the blood, and renovate the system effectually without causing those horrid griping pains, and leaving the bowels in that torpid, costive state which is true of most cathartic medicines now offered for sale These Pills are not (like most others) composed of antimony, quinine, mercury, and calomel but of cathartics used and approved by all good medical practitioners

These Pills may be used in all forms of disease with the most decided benefit, and without fear of injury They do not cramp or rack the delicate frame or weak constitution, but will be found particularly useful by stimulating the weakened and distempered parts into healthy action

The most delicate female, and children of the tenderest age can take these Pills with perfect safety and the most salutary results will follow Married ladies, under all circumstances will find these a safe and in small doses a mild cathartic

They do not make the weak weaker, but give strength and tone to the digestive organs

ALL WHO NEED PHYSIC, TAKE P P. PILLS.

If your system is in an unhealthy state, two or three Parsons Pills will bring it round all right

Parsons Pills are the best known remedy for Constipation of the Bowels, Inflammation of the Kidneys Nervous Headache Sick Headache Irregularity, Costiveness, Biliousness Dyspepsia, Indigestion Female Obstructions Whites Influenza, Loss of Appetite, and Loss of Strength

FROM THE MAINE FARMER"

Parson's Purgative Pills are a safe wholesome vegetable and natural medicine, and may be relied upon as being the best Anti bilious medicine in existence

Let the reader reflect that *Parson's Purgative Pills* are now manufactured and sold by the proprietors of Johnson's Liniment, an article that has reached a larger sale and more extended popularity than any other medicine known, and any attempt on their part to build up a reputation for a worthless article would blast their reputation as compounders of medicine, and ruin their prospects both in regard to the Liniment, and everything else for which they seek the favor of the public

Acting with this view, we have been scrupulously particular not to say any thing in favor of our medicines which the facts in the case do not warrant

PARSONS PURGATIVE OR ANTI BILIOUS PILLS

Notwithstanding the great variety of Pills now in the country, a necessity has long been felt, and freely acknowledged, both by physicians and families for a safe and reliable Anti bilious Pill —something that should be free from mercury and every mineral or deleterious substance and be really safe to administer to infants or the most delicate patient To meet this demand, *Parson's Purgative Pills* were compounded every property of which has been carefully analyzed by experiment and scientific investigation Thus they are believed by physicians and people, wherever they are known, to be the safest surest and most desirable family pill in the country Notwithstanding they are so mild in their operation causing no griping pains they are composed of powerful vegetable substances, and will be found to be sufficiently searching and active to cleanse out the obstructions in the most robust constitution *Parson's Purgative Pills* also have the best effect on the Liver of any medicine yet discovered, at the same time they help the Kidneys, relieve the Lungs, and cleanse the Blood of all impurities, also equalizing its circulation thus preventing cold surface and limbs or undue heat and congestion either inside or out It is as plain as 2 and 2 are 4 that what is required in a family Pill is one that will reach with effect to produce proper excretion, and open all the natural drains *Parson's Purgative Pills* will do this with promptness and fidelity, and no physician's prescription could do more Many people suppose that the Bible declares money to be the root of all evil, but it is not so,—it is the love of it which is spoken of But don t love your money so as to keep you from buying a box of *Parson's Purgative Pills*, when, by so doing, you may avert much pain and lingering distress, and perhaps save a *life* Our advice is to keep them constantly on hand as you may by their use break up fevers, or crop in the bud those symptoms which might otherwise result in long and weary sickness

CHAPPED HANDS —Rub them well at bed time with Anodyne Liniment, and wear leather or kid gloves during the night, for chapped lips, apply it with the finger

SHERIDAN'S

CAVALRY

CONDITION

POWDERS

FOR

Horses, Cattle and Sheep.

These Powders should be given in [illegible] of Appetite Roughness of the Hair Stoppage of Urine or Water or thick Water all Coughs or Swelling of the Glands of the Throat, Worms [illegible] All Hide Bound, Thick Wind, and Heaves They are equally good for Diseases of Horned Cattle and Sheep

VALUABLE TESTIMONY

IN FAVOR OF SHERIDAN'S CAVALRY CONDITION POWDERS

We regard the following as the most valuable testimony which we have to produce to show the superiority of our Powders over all others, and the utility of giving them freely to horses that labor constantly —

[illegible]

Our travelling agent called upon Messrs S [illegible] Pope & Co lumber merchants, Machias Me tried to sell them some of our Sheridan's Horse Powders but they refused to buy them, stating first that they did not believe that they were any good, and, secondly, that they had some of another kind on hand which they could neither use or sell on account of their worthlessness Our agent thinking it important that they should have them [illegible] that they employed a large number of horses in their business) proposed to leave them three (3) [illegible] with the understanding that *they should use them*, and, if not *entirely satisfied* they were to pay nothing for them The Messrs Pope & Co accepted the proposition, and took the Powders In [illegible] months after our agent again visited them they cheerfully paid for the three (3) dozen and additionally and bought five (5) dozen [illegible] December following just two months from leaving the first three (3) dozen on his return from the Provinces, our agent sold them *eight* (8) dozen more, making SIXTEEN (16) dozen sold them for cash, in just one year We avail ourselves of this opportunity to publicly thank the Messrs Pope & Co for their generosity in permitting us the use of their names for certainly there are none more widely or favorably known, and none that would be more advantage to us in point of influence

AN HONEST DOUBTER CONVINCED

In February, 1866 our agent called upon Capt Charles Sager who keeps the largest stand of let horses in the city of Portland Me and tried to sell him a sample dozen of our Sheridan's Cavalry Condition Powders, but the captain stubbornly refused to buy and would not even receive them on trial, with the option to pay or not, as he pleased remarking that he could make a Condition Powder himself that would answer his purpose, that he had some of another kind on hand, that he used occasionally So our agent contented himself with putting up a poster in his office gave him a package of the Powders and departed. Just one month after Capt Sager went to the City Hotel [illegible] and, without solicitation bought [illegible] of the Cavalry Powders and volunteered the use of his name, in any way that would [illegible] their field of usefulness

All who know Capt Sager and [illegible] with him will unite with us in saying that he is one of the most candid reliable and [illegible] men in the State of Maine and [illegible] as well as on other subjects in [illegible] with horses is entitled to great [illegible]

WHAT THEY ARE FOR

"Sheridan's Cavalry Condition Powders should be given to horses in all cases for loss of Appetite Roughness of the Hair, Stoppage of Urine or Thick Water all Coughs and Colds Swelling of the Throat, Worms, Horse ail, Hide bound [illegible] Wind and Heaves They are equally good in cases of horned cattle and sheep, young horses fitting for market may be greatly improved and very much enhanced in value, by the use of these powders

Old horses, almost worn out and apparently useless, may be rejuvenated, and made to do a considerable amount of service, by the use of the Condition Powders " Most horses are troubled with worms, and, while they exist in a horse he cannot thrive the food that should strengthen and nourish the animal is absorbed by the worms [illegible] the horse will have a great appetite and continue to grow poor

SYMPTOMS —Hide bound, coat staring [illegible] and glaring great appetite &c Sheridan's Cavalry Condition Powders " will positively relieve the worst cases

There is no man or set of men, that can feed these Powders on a horse no matter how (if) [illegible] he may be, without admitting that the horse has been benefitted many times the value of the Powders given In support of the above we would ask attention to the following —

The undersigned, having experienced the benefits resulting from a frequent use of "Sheridan's Cavalry Condition Powders " for horses permit the use of their names in recommending them to be (in their opinion) the best of the kind now in the market

FROM THE HON JOSEPH FARWELL MAYOR OF THE CITY OF ROCKLAND ME

In July, 1865, our agent met with Hon J Farwell at the Eastern Hotel, Machias on his way to Pembroke. He remarked that his horse had not been well during the day, and had shown signs of giving out In the evening the horse was much worse and showed symptoms of [illegible] stoppage of water, our agent gave Mr Farwell a package of our Sheridan's Cavalry Condition Powders He gave the horse a good dose that night, and the next morning he departed with his horse [illegible] well. We heard no more of the matter until the following May, when our agent met Mr Farwell at his home in the city of Rockland, Me when he remarked that the Powders he had received had done his horse a great deal of good, that he had used them frequently since, and always with gratifying results, and that he regarded them as the best Condition Powder in the country, and very kindly said if his name would be of any service to us we might use it. Mr Farwell's address is Rockland Me and for a verification of the foregoing plain statement of facts, any person is at liberty to address him
